

How can Disasters and Emergencies be managed effectively?

Young Professionals Program
International Conference on Federalism 2007

- Prevention of disasters and emergencies
- Protection of individuals and goods during or after disasters and emergencies

Avalanches

Heißl - Effective Management of
Disasters and Emergencies

„Century flood“

Heißl - Effective Management of
Disasters and Emergencies

Prevention

- distribution of competences – main responsibility of the Federation
- Prevention – difficult to achieve

Protection

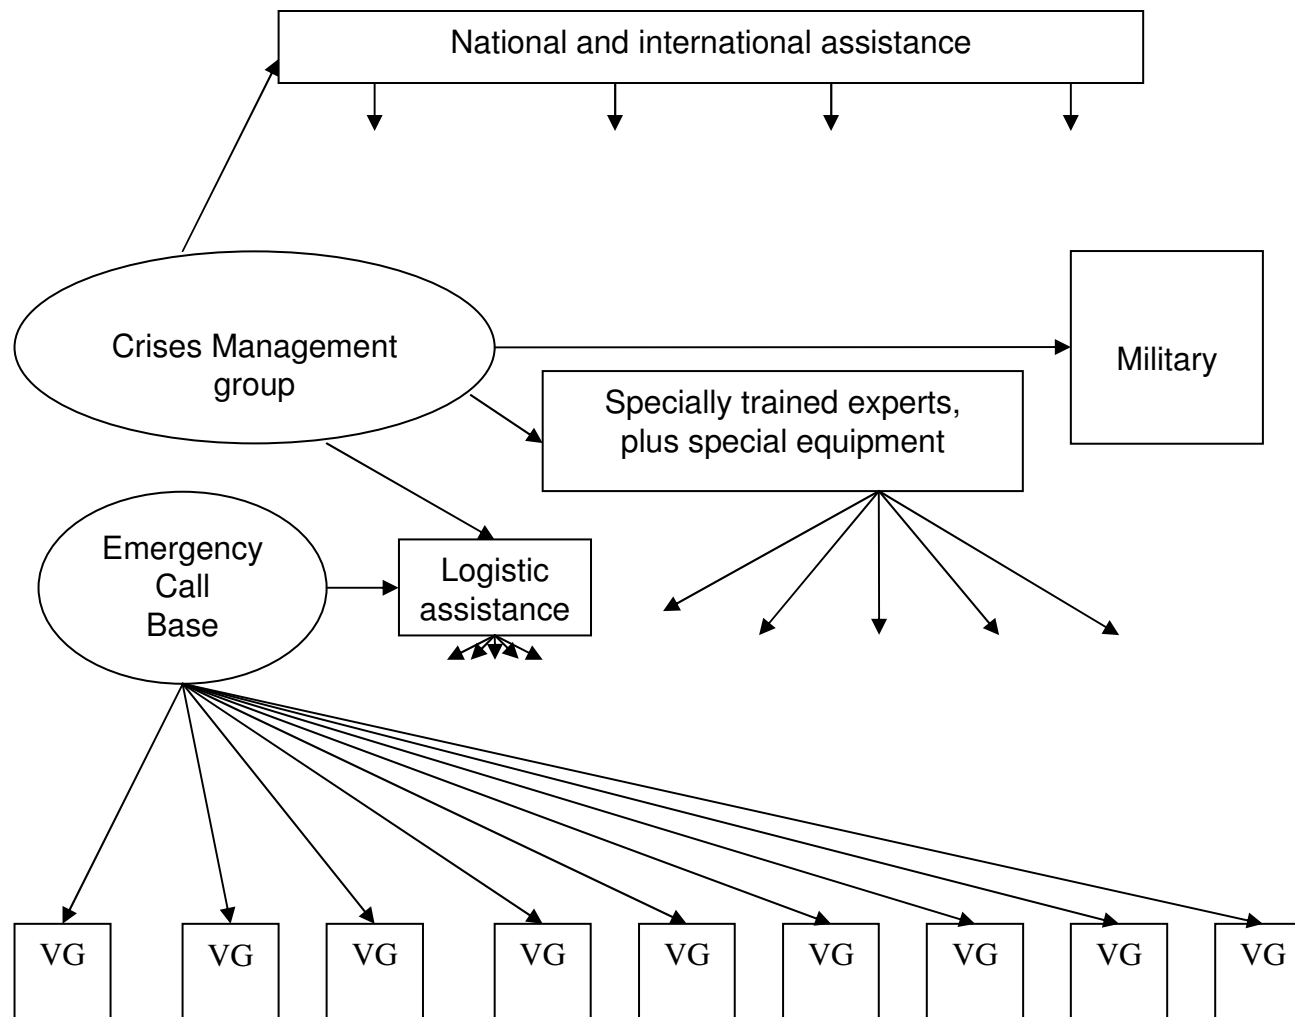

- competence of „*rescue service*“ – Länder
- Example – structure of Austrian mountain rescue service

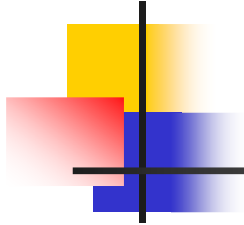

Diversion of Emergencies

- local emergencies
- regional emergencies
- national emergencies

Proposed Structure

Heißl - Effective Management of
Disasters and Emergencies
