

IMMIGRANT INTEGRATION: THE IMPACT OF FEDERALISM ON PUBLIC POLICY

CONFERENCE ORGANIZED BY THE FORUM OF FEDERATIONS IN COOPERATION WITH
THE COMMITTEE OF THE REGIONS (EUROPEAN UNION)

29-30 NOVEMBER 2010

Room JDE 53 Jacques Delors Building, rue Belliard 99-101, Brussels

This conference, which is being held in collaboration with the Committee of the Regions of the European Union, is part of a Forum of Federations project on the impact of federalism on immigrant integration (laws, policies and programs) in seven countries: Canada, the United States, Australia, Germany, Belgium, Switzerland and Spain. Particular attention is being paid to developments and debates during the past 10 years or so that were marked by differences of view and/or approach between the federal and subnational governments (including local government). Leading scholars are currently drafting chapters (based on a common template) for a comparative volume intended for publication by McGill-Queen's University Press. For further information on the project, see: <http://www.forumfed.org/en/global/thematic/immigration.php>.

On the first day of the conference, the 'country authors' will give presentations based on their research. On the morning of 30 November, the project co-directors and a high-level panel composed mainly of practitioners will draw lessons from the previous day and offer observations about the implications for public policy with regard to immigrant integration in multilevel government systems.

There is no fee to attend the conference, but registration is required. Those planning to attend should communicate with Rachida Chaillie, indicating their position/affiliation: chaillie@forumfed.org. A block of rooms (at a reduced rate) has been reserved at the Sofitel Brussels. Ms Chaillie will be pleased to make a reservation for anyone who requires accommodation.

The conference proceedings will take place in English.
